Company Background

Established in 2001, Infosemantics, Inc. is a professional services company specializing in Oracle E-Business Suite (EBS), Cloud Applications, Business Intelligence (BI), and Big Data solutions.

Powered by Our People

Our strength lies in our people – a talented and experienced team of consultants who quickly become an integral part of our customer's teams – providing streamlined advocacy, and engineering solutions.

Partners

Business Intelligence Capabilities

Infosemantics, Inc. is a proven leader in implementing world-wide Business Intelligence solutions, including reporting and data warehousing, across a wide variety of industries. We provide strategic advocacy, roadmap, solution optimizations, along with solutioning and implementation services in the Big Data space, Oracle EPM Cloud, packaged deployments for Oracle E-Business Suite and PeopleSoft.

Infosemantics combines these services with our ability to integrate multiple additional data sources for a unified and clear representation of data for both business users and stakeholders. And we do this all with an exceedingly-high project success rate. So much so, that the majority of our business comes in the form of referrals from long-term clients.

Areas of Expertise

- Tool selections and recommendations (build versus buy)
- Business Intelligence readiness assessments
- Project planning and management
- Solution Architecture and Data Modeling/Architect services
- Big Data Solution Optimization Consulting Services
- Oracle EPM Cloud transition and implementation services

Prominent Solutions in the Marketplace

- **Oracle Business Intelligence Enterprise Edition with BI Applications** (OBIEE/OBIA) – for Oracle E-Business Suite (earlier releases through Release 12), and PeopleSoft Enterprise Applications
- **Oracle Business Intelligence Cloud Services** (BICS)
