Company Background

Established in 2001, Infosemantics, Inc. is a professional services company specializing in Oracle E-Business Suite (EBS), Cloud Applications, Business Intelligence (BI), and Big Data solutions.

Powered by Our People

Our strength lies in our people – a talented and experienced team of consultants who quickly become an integral part of our customer's teams – providing streamlined advocacy, and engineering solutions.

Partners

Oracle E-Business Suite Capabilities

Infosemantics brings senior subject matter experts adept at implementing, supporting, and maintaining earlier releases of the Oracle E-Business Suite through Release 12. Our functional subject matter expertise spans the Financials, Supply Chain, Manufacturing, CRM, and HCM modules. For our EBS customers, Infosemantics advocates incremental Cloud application adoption through the optimal mixture of on-premise, EBS on the cloud and co-existence with select Cloud SaaS modules utilizing IAAS and PAAS services.

Our technical resources are well versed in application customization, personalization, BI/XML publisher, interfaces and data conversion. Our Apps DBA/architect resources are versed in the intricacies and optimization of the Oracle RDBMS starting with Oracle 7.x to the latest 12c release with WebLogic Suite. Our Apps DBA/architect resources are also well versed in multiple technologies for high availability including RAC implementations.
