TX STATE HUB VENDOR

Infosemantics combines these services with our ability to integrate multiple additional data sources for a unified and precise representation of data for both business users and stakeholders. And we do this all with an exceedingly high project success rate. So much so, that the majority of our business comes in the form of referrals from long term clients.

AREAS OF EXPERTISE

- Oracle OBIEE/OBIA, OAS, and OAC
- Moving Workflows to Snowflake
- Support of Teradata platforms/workflows
- Tool selection and recommendations (build versus buy)
- Business Intelligence readiness assessments
- Project planning and management
- Solution Architecture and Data Modeling/Architect services

SNOWFLAKE PARTNERSHIP

Snowflake is the premier cloud data warehouse built for the cloud. We offer prebuilt accelerators to allow you to move your Oracle/Peoplesoft datawarehouse to Snowflake in a cost-effective manner. Working with Snowflake, we can transform your workloads from your legacy systems to the cloud or create brand new workflows, for a very affordable price point. Better yet, there is no long term commitment, so you can proceed as quickly or as slowly as you desire. Infosemantics is a Snowflake partner with certified consultants on board, and developed fast-track methodology along with data model references/templates to expedite transition over to Snowflake.

SHARING OUR EXPERTISE

Infosemantics is extremely active in regional and national user groups serving in critical positions with user groups, presenting white papers, co-authored books, and active blog participation for client issue resolution.
